Geranium Essential oil

Product Name:	Geranium Essential oil
Scientific Name:	<i>Pelargonium graveolens</i>
Plant Part:	Leaves and Flowers
Obtaining Method:	Steam Distillation
Aromatic Scent:	Herbaceous, Green
Quality:	100% Pure and Natural
Main Constituents:	Citronellol, Geraniol, Citronellyl formate
Usage:	Cosmetic, Aromatherapy Pharmaceutical, Food and Beverage Industries and Households

Cumin Essential Oil

Product Name:	Cumin Essential Oil
Scientific Name:	<i>Cuminum cyminum</i>
Plant Part:	Seeds
Obtaining Method:	Steam Distillation
Aromatic Scent:	Warm, Sweet, Spicy
Quality:	100% Pure and Natural
Main Constituents:	Cuminaldehyde, γ-terpinene
Usage:	Cosmetic, Aromatherapy Pharmaceutical, Food and Beverage Industries and Households

Fennel Essential Oil

Product Name:	Fennel Essential Oil
Scientific Name:	<i>Foeniculum vulgare</i>
Plant Part:	Seeds
Obtaining Method:	Steam Distillation
Aromatic Scent:	Sweet, Honeyed, Warm
Quality:	100% Pure and Natural
Main Constituents:	Trans-anethole, Limonene, α-pinene
Usage:	Cosmetic, Aromatherapy Pharmaceutical, Food and Beverage Industries and Households

Coriander Essential Oil

Product Name:	Coriander Essential Oil
Scientific Name:	<i>Coriandrum sativum</i>
Plant Part:	Seeds
Obtaining Method:	Steam Distillation
Aromatic Scent:	Green, Floral, Herbaceous
Quality:	100% Pure and Natural
Main Constituents:	Linalool, α-pinene, γ-terpinene, Camphor
Usage:	Cosmetic, Aromatherapy Pharmaceutical, Food and Beverage Industries and Households

Anise Essential Oil

Product Name:	Anise Essential Oil
Scientific Name:	<i>Pimpinella anisum</i>
Plant Part:	Seeds
Obtaining Method:	Steam Distillation
Aromatic Scent:	Spicy, Warm
Quality:	100% Pure and Natural
Main Constituents:	Anethole- ρ-Allylanisole
Usage:	Cosmetic, Aromatherapy Pharmaceutical, Food and Beverage Industries and Households
